NEW BOARD MEMBERS ELECTED

The election of new board members was held on May 10, 1976 at Waianae Intermediate School. The following were elected to serve on the board for terms of one to three years years. Congratulations!!

Arnold Kidder - Mr. Kidder is an 8-year resident of Waianae. He is employed at the Waianae Community Services Center, and is a member of the Nanakuli Homesteaders Assn. He accepted the Board nomination because he is very interested in the community as far as medical care is concerned.

Robert Lindley - Mr. Lindley is retired and a 5-year resident of the Waianae Coast. He agreed to become involved with the Health Center program because he feels it is a good one and wants to assist it along in any way he can.

Cecilia Meletia - Cecilia is employed at the Waianae Hawaiian Heritage Cultural Center as a secretary-bookkeeper. She stated that serving on the board is one way of becoming involved in the community. She also sees a need for improved medical facilities and emergency services.

John Meletia - John is with the Honolulu Fire Department and is a 3-year resident of Waianae. Like his wife Cecilia, he sees a need for improved medical and emergency services.

James Pfeiffer - Mr. Pfeiffer is employed at the Hawaii Assn. for Retarded Children. He has lived on the Waianae Coast for about 3 years. He feels the Health Center program is an important one to the community.

Littletom Stevens - Mr. Stevens has been a resident of Waianae since 1958. He became involved with the Health Center because it "is needed and helps people."

Gary Taylor - Mr. Taylor is employed by HMSA in the professional relations department. He is a 3-year resident of Makakilo and a member of the Makakilo Community Assn. He recognizes that for a long time, Waianae had been deprived of primary health care. Makakilo, being a growing community, also has a right to primary health care, which is non-existent at present. He would like to possibly see a satellite of the Health Center situated in the Makakilo area in the future.

Taielua Utoafili - Mr. Utoafili is from Samoa and has resided in Nanakuli for almost a year. He decided to become involved with the Health Center because he receives his health care there.
